Future Hopes and Goals:

LIGA evolving into a comprehensive leadership development initiative for women across borders

"It's not just about *empowering* individuals; it's about shifting power. LIGA should continue to grow as a strategy to dismantle systemic exclusion by embedding feminist, decolonial, and grassroots-led frameworks into global advocacy."

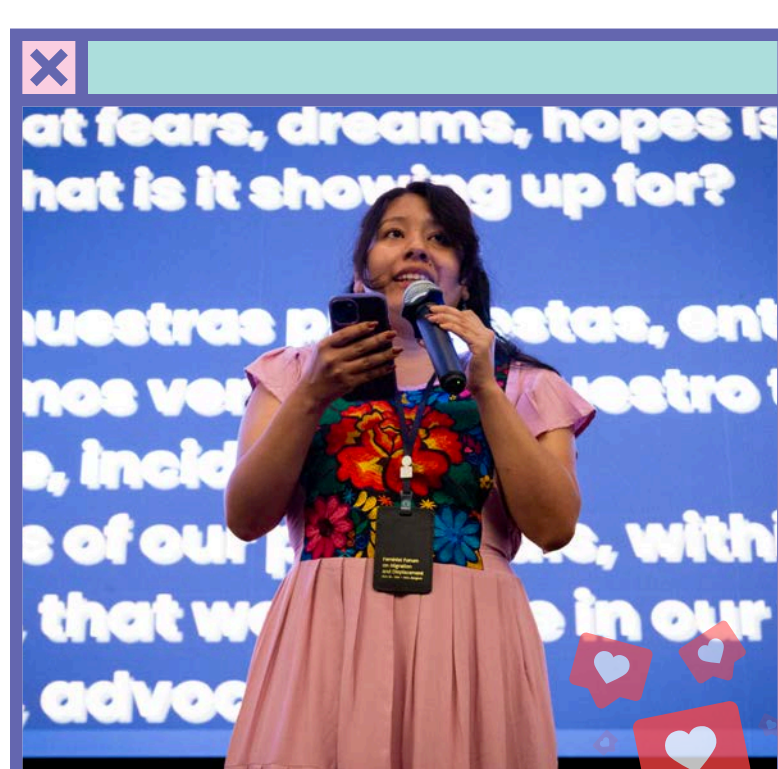

"The program has been an invaluable experience, equipping us with new skills, stronger networks, and a deeper understanding of global advocacy. I look forward to seeing LIGA continue to grow, incorporating more hands-on advocacy practice and expanded engagement in global spaces."

Content Creation

"I would like to imagine LIGA's future with creativity. I imagine content creation that can share advocacy work in a digestible manner to all... Learning and creating from the local to actions and amplification in diverse multilateral spaces."

Mentorship in LIGA

"Participants could engage in mentorship opportunities, networking sessions, and collaborative projects aimed at addressing real-world challenges."

LIGA could also incorporate 'executive' coaching sessions or access to a vibrant alumnae community for ongoing support and collaboration."
